

REMARKS

This is submitted as a full and complete response to the outstanding restriction requirement.

The Examiner has issued a species election requirement stating that Species 1 is graphically displayed in Figures 2A-2C and Species 2 is graphically displayed in Figures 4A-4C. Furthermore, the Examiner has required an election of sub-species grouping Sub-species A as graphically seen in Figure 3 and Sub-species B as graphically seen in Figure 5.

The applicant herewith elects, without traverse, Species 1 as graphically seen in Figures 2A-2C and Sub-species A as graphically seen in Figure 3. Claims 1 and 4 read on Species 1 and claims 1 and 2 read on Sub-species A. It is noted that claim 1 is generic and should a generic or sub-generic claim be found allowable that a claim directed to a non-elected species depends from, it is understood that this claim should also be found allowable in this application.

Early and favorable action on the merits of the elected species and sub-species is courteously awaited.

Respectfully submitted,
JACOBSON HOLMAN PLLC
